PROFILE & SKILLS

M.Sc. Candidate in Computer Science and Engineering at Politecnico di Milano, specializing in Bioinformatics and e-Health. Naturally curious and disciplined, deeply passionate about technology, health, well-being, and current affairs. Experienced in data analysis, environmental bioinformatics research, computer graphics, and journalism. Driven to contribute to innovative projects where engineering and life sciences collaborate to solve complex challenges.

TECHNOLOGIES

Languages: Python · Java · C · R · LaTeX
Tools: Git & GitHub · Vulkan API · Unity · JetBrains · Flet

SKILLS & LANGUAGES

Soft Skills: Curiosity · Discipline · Teamwork · Public Speaking · Time Mgt.
Languages: **Ita:** Native · **Eng:** C1 (CAE) · **Spa:** A2

EDUCATION

M.Sc. in Computer Science and Engineering — **2023 – Present**
Politecnico di Milano — Milano, Italia

- **Specialization:** Bioinformatics & e-Health.
- **Thesis Research:** Development and application of Machine Learning and Data Science techniques (Python) for environmental data analysis in correlation with eDNA metabarcoding at DSBlab (Data Science for Bioinformatics Lab) in collaboration with BMR Genomics Srl (University of Padova).

B.Sc. in Computer Science and Engineering — **2019 – 2023**
Politecnico di Milano — Milano, Italia

Pre-Academic Clarinet Diploma — **2014 – 2019**
Istituto Musicale Gaspare Spontini - Conservatorio di Musica "Rossini" — Ascoli Piceno, Italia

High School Diploma — **2014 – 2019**
Liceo Classico F. Stabili — Ascoli Piceno, Italia

CERTIFICATIONS

Level II Bodybuilding Instructor Certification — **Feb 2024 – Oct 2024**
Accademia Italiana Fitness — Milano, Italia

- Comprehensive training and certification for professional Bodybuilding instruction in Italy and the EU, focusing on training techniques, exercises, biomechanics, nutrition, and first aid. (SNaQ Protocol and registered with the Accademia Italiana Fitness)

C1 English Language Certification - Cambridge (CAE) — **July 2023**
Centro Studi Alpha — Ascoli Piceno, Italia

PROJECTS AND EXPERIENCES

Thesis Presentation at "BITS Padova 2026" Conference — **May 2026**
Bioinformatics Italian Society — Padova, Italia

- Presentation of the M.Sc. thesis development focused on environmental data and eDNA metabarcoding analysis via academic Poster and active participation in scientific sessions.

Academic and University Projects [available on GitHub link] — **2019-2026**
Politecnico di Milano — Milano, Italia

- Development of a Unity video game for mental health, with gamification dynamics and game mechanics designed to train the psychological well-being of ADHD individuals [developed in Team](e-Health Methods and Applications).
- Development of a Vulkan video game, focusing on rendering techniques and shader programming [developed in Team](Computer Graphics).
- Realization of the computer version of the board game "Eryants" by Cranio Creations, written in Java and with online multiplayer [developed in Team](Software Engineering).
- Design and programming of simple logic circuits via VHDL in Vivado [developed in Team](Logic Networks).

Vice Editor-in-Chief – School Newspaper "LaVoceOnline" **2016 – 2019**
Journalism and Communication Ascoli Piceno, Italia

- Information research, interviews, data analysis, and article writing on local and general current affairs; editorial team coordination and content supervision.
- Two-week training completed at EC School (Brighton, UK, 2018), focusing on interviewing techniques, article writing in English, and television hosting simulations.

VOLUNTEERING

Project "Dymbaleh-Nyu" **April 2025 – Present**
"Farsi Prossimo" Cooperative Milano, Italia

- Welcoming, education, and integration of Unaccompanied Refugee Minors in Italy.

Regular Blood Donor **2019 – Present**
AVIS Italian Blood Donors Association Ascoli Piceno, Italia

CIBB 2025 **September 2025**
Conference "Computational Intelligence Methods for Bioinformatics and Biostatistics" Milano, Italia

- Organizing and logistical support during and around scientific sessions.
